Insurance Risk Management

Prevention is better than cure when it comes to burst pipes

If you are going away, please ensure your property is kept warm and if you have a loft hatch please keep it open to allow good ventilation.

Find out where the stop tap is located as this is the first thing needed to stop water escaping if a pipe bursts. Check insulation and lagging on any water pipes and tanks. Don't forget any pipes outside or in a loft. If you are away does anyone locally have a key in case of emergency and, if so, please let us know the details.

Water leaks from Residential flats make up the largest proportion of insurance claims. Help us to try and keep claims and disruption to a minimum and assist in keeping premiums competitive.
